📍 Odisha, India

🎓 EDUCATION

Driems University

B.Tech in Computer Science (AI & ML)

2nd Year Student | Cuttack, Odisha

2024 – 2028

CGPA: 8.5

✂️ TECHNICAL SKILLS

- 🔗 **Languages:** Python (Basic), C, React JS (Frontend Development)
- 🔗 **Web Development:** Full Stack Development, Web Design, UI/UX Principles, HTML, CSS
- 🔗 **AI & ML:** Generative AI, Prompt Engineering, Data Analysis

💡 KEY PROJECTS

Healthcare: Patient Activity & Posture Monitoring

AI & Health-Tech

Posture Dictate & Immobility Detection

- Engineered an AI solution to monitor patient posture and movement patterns.
- Developed an alert system for **prolonged immobility** to assist medical staff in preventing bedsores.

Cosmic Watch

Space Visualization

Interactive Web Platform

- Designed an immersive space exploration hub to track cosmic events and celestial data.
- Built using **React JS** with high-end visual aesthetics and responsive UI.

🏆 HACKATHONS

Hackathon Competitor

2024 – Present

- Focused on solving real-world problems through rapid prototyping and Full Stack development.
- Leveraged **Prompt Engineering** to optimize AI integration in team projects.
- Experience working as a **Fresher** with a high degree of adaptability in collaborative coding environments.

👤 PERSONAL PROFILE & HOBBIES

DOB: 28.05.2006

Experience: Fresher

Hobbies: Reading Books

Interests: Watching Movies, UI Design
